

Dear Dr. Henney,

I am writing to express my opposition to PM
FDA's proposed new rule and guidance on 16
genetically engineered (GE) foods. We oppose
the agency's voluntary labeling and
notification proposals in support of all the
points in the citizen's petition currently
before the agency (docket #00P-1211/CP1).

- ☒ All GE foods should be labeled so I am informed and have a choice.
- ☒ GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing
- ☒ There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.

(Additional Personal Comments:)

Genetic Engineering of foods
should be stopped. If not, we at least need GE
foods to be labelled so we can choose how to feed
